

2024 Culture Preservation Grant Guidelines

Humanities Kansas is leading a movement of ideas. We believe that stories carry our culture and ideas change the world. Culture Preservation grants support projects that preserve and create access to historical or cultural resources that document stories of life in Kansas.

Goals of the Culture Preservation grants:

- 1. Preserve stories that document the human experience
- 2. Expand existing exhibits, photograph collections, artifacts, and archives for easy online access
- 3. Enhance organizational capacity

What types of projects do we support?

Oral histories, digitization efforts, transcription, collections care, language preservation, hands-on training, and other creative preservation projects are eligible. Using the knowledge of a project consultant and implementing best practices are key to a successful application. The Culture Preservation grants program is a partnership between Humanities Kansas and the Kansas Historical Society.

Award Amounts: Grants are competitive with a maximum award amount of \$3,500.

Additional funds can be requested to assist with increasing access to the project, including support for a sign language interpreter, Spanish language interpreter, audio tours for digital and in-person exhibits, rental of handicap accessible ramps, etc. See the budget section of the guidelines for more details.

- **NOTE:** Organizations with an open grant from a previous grant cycle are ineligible.

GETTING STARTED

Talk to HK staff. Applicants are encouraged to speak with HK staff early to discuss ideas or clarify guidelines.

Participate in an online Grants Chat. Online grants chats provide opportunities to learn about the application process and gain tips for writing a proposal. Participation is not required and does not obligate an organization to apply.

Know what makes a successful project. To be competitive for funding, the proposal should clearly define the scope of work, explain the process, and articulate why the material is important and unique. For projects intended to increase accessibility, the audience must be the general public, which primarily refers to an adult, out-of-school audience. For preservation projects, the best proposals focus on a specific story or collection of material. Eligible projects include, but are not limited to, the following:

- Online projects that make cultural materials accessible to researchers and the public
- Oral history projects that involve interviewing and transcription
- Research projects that include a historian or other skilled scholar
- Cataloging, indexing, or inventorying a culturally relevant collection
- Digitization projects that include photographs, film, audio and/or video
- Transcription of diaries, letters, or audio/video recordings to preserve content and enhance public access
- Language preservation and translation projects
- Hands-on "best practices" training or planning that focuses on collection care or other preservation techniques
- Other creative cultural preservation projects

Consider the format. HK is interested in projects that respond to needs and community interests.

Set Goals. Projects must have at least two goals. Goals are simple statements that summarize what you hope to accomplish. Goals might identify the amount of material that will be included as part of the project; explore, document, and preserve a specific story or unique collection; develop skills that can be applied to future work; and enhance the involvement of community members.

Contact a Project Consultant. Every project must involve at least one scholar to serve as a project consultant. Consultants are often museum curators, archivists, professional historians, library professionals with technical expertise, or independent cultural experts with expertise in a specific subject field. The consultant will ensure the methods proposed are consistent with best practices in the field. HK staff can help identify possible consultants.

Before you submit your application, you and your consultant should:

- Discuss the project and how to apply best practices
- Review the application to help clarify goals and process

During the grant project, your consultant could:

- Offer ongoing advice and guidance
- Conduct a site visit or provide hands-on training
- Provide an assessment of the project at its conclusion

Develop a plan of action. A timeline lists the work you hope to accomplish from planning stage to completion.

- Include a list of major project activities to be completed within 12 months
- Assign a date to complete each task
- Identify the key project staff and consider their role in accomplishing the activities. Key staff might include the project director, fiscal officer, marketing coordinator, volunteers, etc.

Identify ways to share the project with the general public. This could include:

- An open house, community conversation, panel discussion, or special speaker at the conclusion of the project
- A Zoom presentation or Facebook Live with a curator
- Digital slide show of photographs online or on the exterior of a building after dark
- Outdoor temporary project display (for example, images on yard signs)
- Hands-on training or workshop
- Small, temporary photo display of what was accomplished and why it is important
- Blog, social media, or promotional brochure

Grant recipients are required to offer a statewide archive an opportunity to duplicate materials produced with HK funds (examples include the State Archives at the Kansas Historical Society or a state university library collection). HK staff will assist you with contact information.

Create a budget. Grant applications are requests for funding, and the budget should not be left to the last minute. The budget should show all anticipated expenses needed to accomplish the project. In addition to grant funds, applicants are asked to contribute goods and services equal to or greater in value than the amount requested. This is called *cost share* and can include:

- Staff and volunteer time devoted to the project
- Donated use of office space, venue facility, equipment, and supplies
- Social media, public service announcements, and other free publicity
- Refreshments at companion events

Cash match is not required. HK only accepts costs accrued after the official start date of the grant period.

Grant funds CAN be used for:

- Salaries for temporary staff specifically hired to carry out the project
- Salaries for part-time staff with significant roles in the project
- Honoraria for the project consultant and other scholars
- In-state travel reimbursement for staff and out-of-town consultants including mileage, meals, and lodging
- Archival material, digitizing services, duplication, program announcements, reports, etc.
- Cost of making copy prints, photographs, or negatives
- Some publicity and promotions (cannot exceed 25% of the request)
- Non-durable supplies, including external drives, and some equipment. (Funds cannot be used exclusively for equipment purchases; however, a small portion of the grant request—less than 25%—can be for equipment if it will enhance the overall goal of cultural preservation.)
- Tools to support online programming, such as a Zoom license for virtual public events.
- Equipment rental such as video cameras
- Funds *in addition to* the grant project can be requested to assist with increasing access to the project, including support for a sign language interpreter, Spanish language interpreter, audio tours for digital and in-person exhibits, rental of handicap accessible ramps, etc. (Accessibility funds are only available to enhance the humanities content as proposed in the project application. HK cannot fund projects that retroactively make existing humanities content accessible.)

If you don't see something listed, contact staff for clarification.

Grant funds CANNOT be used for:

- Salaries for full-time staff employed by the sponsor organization
- Purchase of major equipment (computers, shelves, HVAC), website hosting, or insurance
- Archiving or digitizing of church bulletins, school yearbooks, school board minutes, county records, or newspapers
- Conservation projects that strive to restore documents, photos, or artifacts to their original condition*

- Individual research, courses for academic credit, or school projects. Students may be involved as volunteers
- Purchase, restoration, or construction of a building
- Creation or purchase of a mural, monument, memorial, or plaque
- Publishing a book or catalog
- Attendance at a conference
- Individual research, scholarships, or fellowships
- Fundraisers, advocacy, or lobbying
- Projects that discriminate on the basis of race, color, national origin, gender, age, physical abilities, sexual orientation or identity
- Food, beverages, entertainment, and promotional giveaways such as shirts or mugs

* A note on conservation versus preservation. Preservation projects work to reduce or prevent future damage to an item and extend its life expectancy. Conservation strives to restore an item to an improved state closer to its original form. HK supports preservation projects, but cannot support conservation projects. The difference between preservation and conservation can be confusing. Contact HK staff for guidance.

Humanities Kansas is supported by funds provided by the federal government through the National Endowment for the Humanities. Organizations receiving Humanities Kansas funding may not use the funds to:

- Promote a particular political, religious, or ideological point of view;
- Advocate for a particular program of social or political action; or
- Support specific public policies or legislation.

Culture Preservation Grant recipients are required to attend a 30-minute post-award online meeting. Topics will be compliance rules, deadlines, and Q&A. Date and time of the meeting will be determined after grant awards are announced.

Past Successful Grant Applications are available upon request.

Follow the Application Step-by-Step Guide below for additional details as you develop your draft and final application.

BUDGET

17. Budget Form. Use the budget form to provide a clear description of all the anticipated expenses throughout the course of the project.

Remember that applicants must provide cost share that is equal to or greater than the total grant amount requested.

Cost share is a way to document local contributions. It is the goods and services contributed to the project by the sponsor organization (or other partners involved) that are not funded by the grant. Everything used or done in support of the project once the grant has been awarded has a value.

These local contributions ensure that Humanities Kansas is able to meet its requirements to the National Endowment for the Humanities.

Include detailed notes for each expense that explains how the amount was determined. Round totals to the nearest dollar. Provide details in the following categories. Reviewers expect a clear understanding of where funds are being allocated.

- Project Staff
- Honoraria
- Travel
- Promotion
- Supplies
- Equipment and Facilities
- Other Expenses

What Do These Budget Categories Mean?

Project Staff is the value of time for people who administer the project, both paid and volunteer. Staff may include project director, marketing coordinator, or specialty staff hired for the project. For each person, estimate the total hours dedicated to the project and multiply by a comparable wage.

- Fiscal Officer's services must be a cost share contribution.
- Grant writing or other activities prior to the grant award cannot be included
- Volunteer time may be valued at \$29/hr and should be listed as cost share

Honoraria includes payment to the Consultant. The Consultant's role typically involves phone calls, emails, and at least one site visit. The standard honorarium is \$300–\$500, although the amount should be more if the Consultant makes multiple sites visits or provides training.

Travel includes mileage, lodging, and meals for both project staff and the Consultant. Projects may require the Consultant to travel to meetings with the sponsor organization, or staff travel to research sites in Kansas. Only out-of-town travel can be funded by the grant. In-town travel must be counted as cost share. HK allowable rates:

- Mileage: \$.56/mi for private vehicles. Rental cars with economy rates are allowed.
- Lodging: Up to \$135/night. Expenses beyond this rate must be cost share.
- Meals: Up to \$45/day

Promotion includes the costs of creating invitations, flyers, and posters for public events and costs associated with mailings. It may also include paid advertising such as online media, newspaper, radio, and television. The use of social media is encouraged.

Supplies includes detailed costs of what's needed for the specific project. Supplies are usually nondurable goods or things that are consumed during the life of the project like archival supplies (such as boxes, folders, photograph sleeves, or cotton gloves). This category may include estimated costs of expendable items or office supplies needed for the project, such as pens, paper, or printer ink. **Equipment and Facilities** includes rental costs for meeting rooms, public venues, sound equipment, projectors, or other items needed for a project. Grant funds cannot be used to purchase major equipment, but you can place a fair market value on its use and count cost share. Fair market value is based on the cost of renting similar equipment. Small equipment purchases are allowable, but purchase must be vital to the project (cannot exceed 25% of the overall grant request).

Other includes costs essential to the project not identified above like duplicating photographs, digitizing services, accessibility expenses, or other costs essential to the project not previously identified. Be specific. HK rarely funds "miscellaneous" costs. Items such as refreshments should be listed as cost share.

- **18. Additional Funding.** List additional funding that you have requested, plan to request, or have secured for this project. Provide amount(s) and funding source(s). [1,500 characters]
- 19. Admission. Are you charging admission for anything related to the project? Yes or No.

AUTHORIZING OFFICIAL

- **20.** Authorizing Official is the person, such as president, dean, or executive director, who is authorized to approve an application on the organization's behalf.
 - Name and Title / Role in Organization

ATTACHMENTS

- **21. Promotional Image.** All applicants must upload a photograph or image related to the project that can be used in Humanities Kansas publications. Images of people and faces are preferred. Avoid logos. Historical photographs are acceptable. Images should be a maximum of 1 MB in size. (JPG, PNG, GIF, PDF)
- **22.** Letters of Support are not required, but can explain the broader community impact. Letters provided by a partner organization, mayor, or convention & visitors bureau help demonstrate local interest. No more than three letters of support. Documents should be a maximum of 1MB in size. (PDF or Word)
- **23.** Additional Material that has not been previously addressed, or additional scholars. Combine letters into one file to upload. Documents should be a maximum of 1MB in size. (PDF or Word)
