

2020 Culture Preservation Grants

May 6, 2020

Humanities Kansas (HK) is leading a movement of ideas. We believe that stories carry our culture and ideas change the world. Culture Preservation grants support projects that preserve and create access to historical or cultural resources that document stories of life in Kansas.

Goals of the Culture Preservation grants:

1. Preserve stories that document the human experience
2. Pivot existing exhibits, photograph collections, artifacts, and archives for easy online access
3. Enhance organizational capacity

What types of projects do we support?

Oral histories, digitization efforts, transcription, collections care, language preservation, hands-on training, and other creative preservation projects are eligible. Using the knowledge of a project consultant and implementing best practices are key to a successful application. The Culture Preservation grants program is a partnership between Humanities Kansas and the Kansas Historical Society.

Of special interest are projects that pivot existing collections, archives, and exhibits to online or other formats not reliant on the traditional drop-in visit. The primary purpose of Culture Preservation grants is to enhance public access and preserve local cultural resources, but what does access look like if the public cannot visit in person?

Award Amounts:

Grants are competitive with a maximum award amount of \$3,500. There have been updates to the submission process, but the process remains competitive. Please read carefully.

GETTING STARTED

Talk to HK staff. Applicants are encouraged to speak with HK staff early to discuss ideas or clarify guidelines.

Participate in an online Grants Chat. Humanities Kansas regularly schedules online grants chats to provide opportunities for applicants to learn about the application process and gain tips for writing a proposal. Participation is not required and does not obligate an organization to apply. Future grant chats will be announced on HK's social media platforms and the online calendar of events.

Know what makes a successful project. To be competitive for funding, the proposal should clearly define the scope of work, explain the process, and articulate why the material is important and unique. For projects intended to increase accessibility, the audience must be the general public, which primarily refers to an adult, out-of-school audience. For preservation projects, the best proposals focus on a specific story or collection of material. Eligible projects include, but are not limited to, the following:

- Online projects that make cultural materials accessible to researchers and the public
- Oral history projects that involve interviewing and transcription
- Research projects that include a historian or other skilled scholar
- Cataloging, indexing, or inventorying a culturally relevant collection
- Digitization projects that include photographs, film, audio and/or video
- Transcription of diaries, letters, or audio/video recordings to preserve content and enhance public access
- Language preservation and translation projects
- Hands-on "best practices" training or planning that focuses on collection care or other preservation techniques
- Other creative cultural preservation projects

Consider the format. HK is interested in projects that respond to needs and community interests. HK grants are intended to get a project "off the ground," but HK cannot be expected to fund a similar project year after year.

Set Goals. Projects must have at least two goals. Goals are simple statements that summarize what you hope to accomplish. Goals might identify the amount of material that will be included as part of the project; explore, document, and preserve a specific story or unique collection; develop skills that can be applied to future work; and enhance the involvement of community members.

Contact a Project Consultant. Every project must involve at least one scholar to serve as a project consultant. Consultants are often museum curators, archivists, professional historians, library professionals with technical expertise, or independent cultural experts with expertise in a specific

subject field. The consultant will ensure the methods proposed are consistent with best practices in the field. HK staff can help identify possible consultants.

Before you submit your application, you and your consultant should:

- Discuss the project and discuss how to apply best practices
- Review the application to help clarify goals and process

During the grant project, your consultant could:

- Offer ongoing advice and guidance
- Conduct a site visit or provide hands-on training
- Provide an assessment of the project at its conclusion

Develop a plan of action with a timeline that lists the work you hope to accomplish from planning stage to completion.

- Include a list of major project activities to be completed within 12 months
- Assign a date to complete each task
- Identify the key project staff and consider their role in accomplishing the activities. Key staff might include project director, fiscal officer, marketing coordinator, volunteers, etc.

Identify ways to share the project with the general public. This could include:

- An open house, community conversation, panel discussion or special speaker at the conclusion of the project
- A zoom presentation or a Facebook Live with a curator
- Digital slide show of photographs online or on the exterior of a building after dark
- Outdoor temporary project display (ie images on yard signs, etc)
- Hands-on training or workshop
- Small, temporary photo display of what was accomplished and why it's important
- Blog, social media, or promotional brochure

Grant recipients are required to offer a statewide archive an opportunity to duplicate materials produced with HK funds. To see a list of statewide archives, visit:

<https://www.humanitieskansas.org/grants-programs/culture-preservation-grants>

Create a budget. The budget should show all anticipated expenses needed to accomplish the project. In addition to grant funds, applicants are asked to contribute goods and services equal to or greater in value than the amount requested. This is called cost share and can include:

- Staff and volunteer time devoted to the project
- Donated use of office space, venue facility, equipment, and supplies
- Social media, public service announcements, and other free publicity
- Refreshments at companion events

Cash match is not required. Grant funds can only be used for direct costs. HK can only accept costs accrued after the official start date of the grant period.

Grant funds CAN be used for:

- Salaries for temporary staff hired specifically to carry out the project
- Salaries for part-time staff with significant role in the project
- Honoraria for the project consultant and other scholars
- In-state travel reimbursement for staff and out-of-town consultants
- Archival material, digitizing services, duplication, program announcements, reports, etc

- Cost of making copy prints or photographs or negatives
- Some publicity and promotions. No more than 40% of request
- Non-durable supplies, including external drives
- Equipment rental such as video cameras

Grant funds CANNOT be used for:

- Salaries for full-time staff employed by the sponsor organization
- Purchase of equipment (computers, shelves, HVAC), website hosting, or insurance
- Archiving or digitizing of church bulletins, school yearbooks, school board minutes, county records, or newspapers
- Individual research, courses for academic credit, or school projects. Students may be involved as volunteers
- Purchase, restoration, or construction of a building
- Creation of purchase of a mural, monument, memorial, or plaque
- Publishing a book or catalog
- Courses for academic credit or school projects. Students may be involved as volunteers
- Attendance at a conference
- Individual research, scholarships, or fellowships
- Fundraisers, advocacy, or lobbying
- Projects that discriminate on the basis of race, color, national origin, gender, age, physical abilities, sexual orientation or identity
- Food, beverages, entertainment, and promotional giveaways such as shirts or mugs

Past Successful Grant Applications are available upon request.

BUDGET FORM

16. BUDGET

The budget shows all anticipated expenses throughout the course of the project and indicates what is to be funded with the HK grant or with cost share. Cost share is a way to document local contributions. Cost share is the goods and services contributed to the project by the sponsor organization (or other partners involved) that are not funded by the grant. These local contributions ensure that Humanities Kansas is able to meet its requirements to the National Endowment for the Humanities. Remember: Applicants must provide cost share that is equal to (or greater than) the

grant amount requested from Humanities Kansas. Everything used or done in support of the project once the grant has been awarded has a value.

Include detailed notes for each expense that explains how the amount was determined. Round totals to the nearest dollar. Provide details in the following categories:

- Project Staff
- Honoraria
- Travel
- Promotion
- Supplies
- Equipment and Facilities
- Other Expenses

What Do These Budget Categories Mean?

Project Staff is the value of time for people who administer the project, both paid and volunteer. Staff may include project director, marketing coordinator, or specialty staff hired for the project. For each person, estimate the total hours dedicated to the project and multiply by a comparable wage.

- Fiscal Officer's services must be a cost share contribution.
- Grant writing or other activities prior to the grant award cannot be included
- Volunteer time may be valued at \$15/hr and should be listed as cost share

Honoraria includes payment to the Consultant. The Consultant's role typically involves phone calls, emails, and at least one site visit. The standard honorarium is \$200 although the amount should be more if the Consultant makes multiple sites visits or provides training. Consultants should be paid with HK funds, unless they are employees of the Kansas Historical Society (KHS). Honoraria for KHS employees is donated in-kind and should be listed as cost share.

Travel includes mileage, lodging, and meals for both project staff and consultant. Projects may require consultant to travel to meetings with the sponsor organization, or staff travel to research sites in Kansas. Only out-of-town travel can be funded by the grant. In-town travel must be counted as cost share. HK allowable rates:

- Mileage: \$.50/mi for private vehicles. Rental cars with economy rates are allowed.
- Lodging: Up to \$100/night. Expenses beyond this rate must be cost share.
- Meals: Up to \$35/day

Promotion includes the costs of creating invitations, flyers, and posters for public events and costs associated with mailings. It may also include paid advertising such as online media, newspaper, radio, and television. The use of social media is encouraged.

Supplies includes detailed costs of what's needed for the specific project. Supplies are usually non-durable goods or things that are consumed during the life of the project like archival supplies (such as boxes, folders, photograph sleeves, or cotton gloves). This category may include estimated costs of expendable items or office supplies needed for the project, such as pens, paper, or printer ink.

Equipment and Facilities includes rental costs for meeting rooms, public venues, sound equipment, projectors, or other items needed for a project. Grant funds cannot be used to purchase equipment, but you can place a fair market value on its use and count as cost share. Fair market value is based on the cost of renting similar equipment.

Other includes costs essential to the project not identified above like duplicating photographs, digitizing services, or other costs essential to the project not previously identified. Be specific. HK rarely funds “miscellaneous” costs. Items such as refreshments should be listed as cost share.
