

**HUMANITIES
KANSAS**

A Movement of Ideas

In-Person Events during COVID-19

Effective August 3, 2020
Updated January 19, 2022

The health and safety of Kansans and their communities remains a priority for Humanities Kansas. A successful event requires open communication between the sponsoring organization and the invited HK speaker or discussion leader to determine comfort level, requirements, and suggestions. We want HK events to be healthy and enjoyable for everyone.

We also encourage sponsoring organizations and HK speakers and discussion leaders to consider using Zoom, Facebook Live, or other online platforms if safety concerns arise. The content of the presentation is the same whether offered in person or online.

When scheduling an event, please discuss in advance expectations regarding safety protocols. These may include:

- Reviewing local health guidelines and/or requirements. Local organizations are expected to follow local guidelines and/or requirements.
- Encouraging the speaker, staff, volunteers, and attendees to wear face masks during the event
- Setting a maximum limit on attendance that allows social distancing.
- Seating attendees six feet apart
- Providing free hand sanitizer and masks

For more information about COVID-19 safety, visit [KDHE's COVID-19 Resource Center](#).

This information will change as circumstances change. Be sure to sign up for HK's e-newsletter and follow social media for all updated information.
